Here is the table with our comments. Please review and let me know by 9:30 if okay to send.  
After the RICT meeting I'll check with Rich to see if we need a conference call today or if this can wait until January.

I saved the file under AT\_Shared/Special Projects/Dimock Project 2012.

Thanks again to everyone for our meeting yesterday.

Attached is a file that Stevie had and I amended for this sampling. Please take a look at it and see if I left anything out.  
**Ex. 5 - Deliberative** ? Robin, please check the list of metals. We cannot do methane at this time, but Adam is working on adding this capability (column is on order).

**Subject:** Dimock Sampling

Kevin and Sue,

There is a possibility that HSCD will go out sampling next month on some home wells related to the Dimock HF issue. I briefly spoke to Rich Rupert last week and he had few details but progress is underway to outline a list of analytes and develop a sampling plan. I gave Rich both of your names as contacts for us. If there are any conference calls or more

information this week I'll let you know. For now I will send you two emails that were sent to me.

Sue - would you pull together a list of parameters based on the ORD HF Study and what we recommended in the past?

We can discuss more tomorrow at the branch meeting.

Cindy
